EXECUTIVE OFFICE

Atlanta, Georgia, April 20, 1956

To the Stockholders:

The Board of Directors respectfully presents herein report of Atlanta and West Point Rail Road Company for the year ended December 31, 1955.

Net income amounted to \$225,187 for the year 1955 compared with \$194,859 for the preceding year, or an increase of \$30,328. This increase is due to the recording of a claim for a refund of income taxes paid in former years amounting to \$60,899, because of a loss in taxable income for the year 1954. Excluding this tax claim the net income for 1955 would have shown a decrease from the previous year of \$30,571. This decrease in net income was attributable principally to a work stoppage which commenced March 16 and ended May 11, 1955. During this period the operations were limited and the adverse affect on operating income lingered throughout the year.

Operating revenues and expenses decreased \$328,517 and \$255,174, respectively, compared with 1954. The net result was that operating expenses absorbed 86 cents of each dollar of revenue in 1955 compared with 85 cents for the preceding year.

Tax accruals for 1955 amounted to \$183,328 which was 2.48 times dividends paid to shareholders and about .81 times net income. Payments for retirement and unemployment, included in tax accruals, for benefit of employees and their dependents, amounted to \$84,943 during the year.

The number of shares of capital stock outstanding was 24,636 in each of the two years under review, book value of which, as shown by balance sheet, was \$294.67 a share at the close of 1955. Dividends amounting to \$3 a share were paid to shareholders in 1955 and 1954.

The long term indebtedness of the Company as represented by conditional sale agreements covering equipment was increased by \$37,440 during the year. The additional indebtedness was occasioned by acquisition of 12 of 28 gondola cars on order. Payments in 1955 amounting to \$110,481 reduced obligations so that at the close of the year the balances outstanding aggregated \$881,749 of which \$80,754 is due in 1956. Your Company made commitments in 1955 for the purchase of equipment, a portion of which will be financed under long term conditional sale agreements. The commitments include the following freight cars:

No. of Cars	Type	Estimated Date of Delivery	Estimated Cost
28	Gondolas	April 1956	\$ 97,034
33	50 Ft. Box Cars		245,520
33	40 Ft. Box Cars	June 1956	220,704
58	Wood Rack Cars		82,951
	Tota	al	\$ 646,209

The wood rack cars are being converted from box cars withdrawn from service due to their need of heavy repairs.

Capital expenditures in recent years for improvements to the properties continued to play an important part in affording reduction of expenses and enabling better control of operating costs. Such expenditures aggregated \$4,101,512 for the years 1946 through 1955, or 54.72% of the total investment as of 1945.

Investment in property devoted to transportation, including value of materials and supplies and cash, was \$10,996,353 at the close of 1955, a decrease of \$154,741 compared with 1954. Such investments less recorded depreciation and amortization, were \$7,385,488. The average rate of return on investment shown was 3.05% compared with 2.55% in 1954.

Continuing vigorous competition from subsidized transport agencies, which has assailed the railway industry as a wholehas been keenly felt by your Company. This, together with outmoded monopoly regulations to which railroads are subjected, results in an inadequate return on investment, as compared with other enterprises.

MILEAGE OPERATED

Miles of road operated at December 31, 1955, were as follows:

MAIN LINE:

Atlanta to West Point, Ga. Owned—Property deeded Less—Leased to Atlanta Terminal Company	85.72 0.10	85.62	
Hulsey Junction to Oakland City—Owned property deeded		5.16	90.78
TRACKAGE RIGHTS: Atlanta Terminal Company, Atlanta, Ga Central of Georgia Railway, Oakland City Junction, Ga Georgia Railroad, Atlanta Joint Terminals		0.46 0.05 2.02	2.53
Total mileage operated			93.31

Total mileage operated in freight and passenger service was 90.44 and 86.08 miles, respectively.

32,758

Principal additions to property consisted of the ROAD:	ne followin	g:					
ROAD:			 				7,257 5,475 5,349 34,496

The principal retirements during the year include obsolete water and fuel stations amounting to \$39,924 for property classified as road and 21 freight cars for property classified as equipment.

The property was adequately maintained during 1955, and its general condition at close of the year compared favorably with that of previous years.

TAXES

The following shows amounts of various taxes accrued compared with preceding year:

					Incr —Dec	
		1955	1954	E	Amount	Per Cent
UNITED STATES GOVERNMENT TAXES:						
Adjustment of prior years income tax accruals	\$	-63,113 78,650 6,293 2,335	\$ 366 81,423 6,528 2,027	\$	-63,479 -2,773 - 235 308	3.41 3.60 15.19
Total	\$	24,165	\$ 90,344	\$	-66,179	73.25
STATE AND LOCAL TAXES:						
Adjustment of prior years income tax accruals	\$	124,021	\$ -1,476 $128,482$	\$	1,476 $-4,461$	100.00
Property	Φ	21,802	20,903		899	4.30
Other		3,081	2,757		324	11.75
Total	\$	148,904	\$ 150,666	\$	-1,762	1.17
Total railway tax accruals Taxes on non-operating property	\$	173,069 10,259	\$ 241,010 10,058	\$	-67,941 201	28.19 2.00
Total all Taxes	\$	183,328	\$ 251,068	\$	-67,740	26.98

The adjustment of prior years federal income tax accruals includes a carryback amounting to \$60,899 to the year 1952 resulting from an operating loss sustained in 1954. Such operating loss was occasioned in part from the commencement of accruing employee's vacation pay in that year, a practice which is to continue in future.

In the determination of taxable income a benefit is reflected of approximately \$88,000 for 1955 and \$89,000 for 1954, resulting from deductions for amortization in excess of normal depreciation on emergency defense facilities. The accumulated benefit thus derived to December 31, 1955 is \$369,000. Under accounting rules of Interstate Commerce Commission amortization of emergency defense facilities subsequent to January 1, 1950 in excess of normal depreciation is not chargeable to income.

The election to claim accelerated amortization of a portion of the cost of defense facilities as a deduction for income tax purposes during the first five years of their service use, results in smaller charges for income taxes during that period and greater taxes in relation to income thereafter.

EXPENSES

Operating expenses amounted to \$3,047,330 during 1955 as compared with \$3,302,504 for the preceding year, or a decrease of \$255,174.

As previously mentioned in this report the work stoppage of fifty-six days accounted for the principal portion of decrease in expenses. Notable among the variable expenses affected during this period were wages, materials and joint facility operations.

These reductions were somewhat offset by higher wage schedules, increased prices of materials and the commencement of a health and welfare insurance plan granted employees, which increased operating expenses during the latter part of the year.

The ratio of operating expenses to operating income increased .67% compared with preceding year. The decline in traffic volume was 8.4%.

Comparative ratios of expenses to revenues for each of the past five years are as follows:

	1955	1954	1953	1952	1951
Maintenance of way and structures. Maintenance of equipment. Traffic. Transportation. Miscellaneous operations.	5.06 41.25 1.35	13.71 16.94 4.64 43.00 1.53	15.36 16.97 4.23 40.35 1.56	12.26 16.06 4.00 42.15 1.72	12.39 14.71 4.10 42.76 1.71
General	5.05	5.04	4.69	4.68	4.83
Total	85.53	84.86	83.16	80.87	80.50

LABOR RELATIONS AND WAGES

During the year, a variety of demands from various crafts were disposed of.

In annual report for 1954 reference was made to demands of various non-operating groups for paid holidays, a third week's vacation for employees with 15 years continuous service, and a health and welfare plan to include hospital, medical and surgical insurance on a national, compulsory basis. In lieu thereof, the Company offered to negotiate a voluntary hospital, medical and surgical plan with benefits equal to, or better than, those provided in the national plan, at a lower cost; or, a wage increase of two cents an hour, applicable to each straight time hour worked, which the employee might use, if he so desired, to purchase protection of his choice. This offer was refused, and at 4:00 P.M., Wednesday, March 16, 85% of non-operating employees went on strike. The operating employees honored picket lines established by the striking "non-ops". The strike continued for a period of fifty-six days, an agreement to arbitrate the question being entered into on May 9, and all employees returned to work on May 11. With the aid of officers and supervisory employees, as well as a number of loyal non-operating employees who remained in our service, we were able to operate a limited amount of freight train service during the strike. Under award of the Referee in the arbitration your Company was required to pay entire cost of health and welfare program effective May 1, 1955, thus eliminating the compulsory feature, and contract with New York Life Insurance Company for this coverage at a cost of \$5.95 was approved, the Carrier to retain any dividends accruing therefrom.

Effective June 1, rates of pay of yard foremen were increased 25 cents a day. Rates of pay of passenger conductors and trainmen were increased 20 cents a day, and such employees in freight service were granted increases based on number of cars in train.

Effective October 1, employees in the four operating crafts were granted increases which conformed to a pattern of 10½ cents an hour, 4 cents of which was in lieu of a health and welfare program. Engineers and conductors were granted an additional 2%. The agreements also carried a provision for a new conversion factor for yard service employees now on, or later adopting, a 5-day work week, designed to adjust rates as they would have been if such employees had been granted a 5-day work week with 6 days' pay in 1948.

Effective December 1, in conformity with recommendation of a Presidential Emergency Board, employees in a majority of the non-operating crafts were granted an increase of $14\frac{1}{2}$ cents per hour.

Pending and unadjusted at the close of the year were demands of train dispatchers for wage increases. Additional requests are now on hand for increase in rates of pay and a free health and welfare program for firemen and increase in rates of pay and for holiday pay for trainmen.

AGRICULTURAL AND INDUSTRIAL

Production and values of all crops and livestock increased, and forestry made appreciable gains, as compared to previous year.

The industrial expansion in the area continued throughout 1955, and all indications are that this will continue in the future. Twelve industries to be served directly by this railroad were established and one industry expanded during the year.

GENERAL.

An examination of the accounts of the Company has been made by Messrs. Haskins & Sells, Certified Public Accountants, whose certificate appears in this report.

The Board takes pleasure in expressing its appreciation to those officers and employees who rendered loyal and faithful services in the performance of their duties throughout the year.

By order of the Board:

The following memorial was unanimously adopted by the Board of Directors of Atlanta and West Point Rail Road Company at its meeting on July 22, 1955:

The President announces with deep regret the passing on July 16, 1955, of Mr. Henry E. Judge, General Auditor of this company.

Mr. Judge was born January 1, 1889. He entered the service of this company on September 23, 1918, as Traveling Auditor, held various positions in the Accounting Department, was appointed Auditor on November 11, 1940, and promoted to General Auditor on October 15, 1952, which position he held at the time of his death.

Whereupon the following resolution was read:

Bt It Resolved, that the Directors of Atlanta and West Point Rail Road Company record with deep regret the death of Mr. Henry E. Judge and desire to express their high appreciation of his faithful and efficient services with this company. His loyalty to the management and his fidelity to the company's interests will be remembered by his associates.

Be It further Resolved, that this resolution be spread upon the company's permanent records and that a copy be sent to his family.

Adopted by a Standing Vote of all present

HASKINS & SELLS

ACCOUNTANTS

HEALEY BUILDING ATLANTA 3

ACCOUNTANTS' CERTIFICATE

Atlanta and West Point Rail Road Company:

We have examined the balance sheet of Atlanta and West Point Rail Road Company as of December 31, 1955 and the related statements of income and of earned surplus - unappropriated for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of income and of earned surplus - unappropriated present fairly the financial position of the Company at December 31, 1955 and the results of its operations for the year then ended, in conformity with principles of accounting prescribed or authorized by the Interstate Commerce Commission.

Balance of income transferred to Earned Surplus	\$ 225,186.74	\$ 194,859.19	\$ 30,327.55

⁻Minus

In the determination of taxable income a benefit is reflected of approximately \$88,000 for 1955 and \$89,000 for 1954, resulting from deductions for amortization in excess of normal depreciation on emergency defense facilities. The accumulated benefit thus derived to December 31, 1955 is \$369,000. Under the accounting rules of the Interstate Commerce Commission, amortization of emergency defense facilities subsequent to January 1, 1950 in excess of normal depreciation is not chargeable to income.
